

4-H Sentinels – Model Rockets

Objectives:

Provide an environment where members can learn about and participate in building and launching Model Rockets. Members learn about the principles of rocketry and how to construct a flying model rocket while learning the importance of safety, patience and experience. The club has a full range of age groups creating an environment where younger members learn from older, more experienced leaders. The club provides a fun, informal, social environment for members to showcase their building skills and creativity.

Details:

The club meets once a month on the 2nd Wednesday at the 4H Center 7-8:30pm. Rocket launches are scheduled a couple of times a month during the Spring and Summer, culminating in showcasing and launching member's rocket projects at the 4-H Fair in August. Members build and launch their own model rockets either build from kits or individually designed and created. The club is open to members grade 2-13. (Parent attendance required for grades 2-3). No experience necessary. Parent involvement supporting the club and 4-H in general is encouraged to "Make the Best Better"

Club Rules:

1. Regular attendance of the meetings and other events.
2. Always show good sportsmanship and respect for others
3. Share creative ideas and support other members in their model rocket projects
4. Participate in fundraising for 4-H.
5. Display your model rockets at the 4-H Fair
6. Contribute posters, pictures and/or videos to display at the 4H Fair
7. Participate in 4-H Fair setup, tent activity, and breakdown.

Awards:

- No formal competition or awards, but members may receive recognition of their club accomplishments showing their club contributions, support of other members and leadership
